Description

This little device is there to turn your standard television into a Smart Television. This means it allow you to access the internet on your TV and also stream videos and music from a number of online channels that include YouTube, Netflix, Redbull TV and Spotify. An even more nifty feature is you can beam photos or videos from your phone or tablet directly to your TV without the need of any cables and enjoy life's greatest moments on a big screen.

Specifications

Thinking of getting a smart TV? What if you could make your current TV smart instead for a fraction of the cost? This is what the Google Chromecast TV is made to do. It brings smart features like streaming online content from YouTube and Netflix as well as enabling you to wirelessly connect your smartphone or tablet to the TV to enjoy your photos or videos on a much bigger display. It comes in the most compact package that nicely tucks away behind the TV for a clean look and works on any TV with an HDMI port.
