## Description

The Xiaomi Redmi Note 7 is a premium smartphone with a budget price. The star of the show is the epic 48MP camera which is one of the biggest cameras in any smartphone capable of taking some very stunning photos. It also comes with a capable processor offering the perfect balance between power and efficiency and a battery big enough to last you an easy 2 days before you need a charge.

## Specifications

Looking to get a flagship smartphone experience without breaking the bank? The Xiaomi Redmi Note 7 fits the bill. It has a modern, premium metal and glass design and a crazy 48MP camera for probably some of the best photos around. The screen is sharp and at 6.3 inches it is plenty big to keep you productive on the go as well enough screen to watch movies and view the amazing photos taken by this phone. And productive you can be with the big 4000mAh battery that will keep you away from the charger for over a day at a time. Fast charging is also enabled allowing you to get enough juice after a short charge. This is the Xiaomi Redmi Note 7.
