Description

The Xiaomi Redmi 7 provides all the essentials at a budget friendly price. A premium build complete with a modern edge-to-edge display, dual rear cameras, a fingerprint scanner and a big 4000mAh battery for a solid 2 day battery life. It also supports 2 Sim cards and expandable storage for zero compromises on connectivity and storage.

Specifications

Who said style and features should cost an arm and a leg? The Xiaomi Redmi 7 is the perfect definition of value for money. The display is an edge-to-edge display with a small cutout for a modern full screen experience. The battery is a mammoth 4000mAh unit capable of going days between charges, a requirement in Zimbabwe where power is not around for most of the day. Gone are the days where you have to choose between 2 sim cards or 1 sim and a memory card. With the Xiaomi Redmi 7's Sim+Storage Sim tray you can have the best of both worlds. Up to 512GB of expandable storage plus 2 of your favorite sims all at once. The goodies don't stop there. You still get your trustee 3.5mm headphone jack. You still get one of the fastest and most accurate fingerprint scanners. You get an IR blaster to control your TV, air conditioning or home theater. Budget doesn't mean compromise. At least not for the Xiaomi Redmi 7.
